Problem 1

a. Cookie cutter

b. House[1]

c. Member

d. Method (the book uses this term, while you continue to use "function" in your lectures)

e. Object

f. Data and behavior (or more specifically: members and methods)

Problem 2

1. b[2] 2. a 3. b, d 4. d 5. c

Problem 3

1. "June"

2. January

3. ["May", "June", "July"]

4. 6 June 7 July

5. Czerwiec[3] February

6. ["May", "June", "July"] ["May", "June", "July"]

7. Luty

8. 6 2

9. False

10. True

---

1 Grammatically this seems odd, and too similar to the first item in Problem 1; may I suggest: A class is to an object as a (house) is to a blueprint.

2 One could argue "D" is technically correct for Problem 2.1, although the wording conflicts with "B".

3 I'm amused by the simple fact that this and "Luty" are the Polish words for "June" and "February". (Yes, I Googled this.)
